DIVISION OF SCIENCE RESOURCES STATISTICS

The Division of Science Resources Statistics (SRS) fulfills the legislative mandate of the National Science Foundation Act to ...

provide a central clearinghouse for the collection, interpretation, and analysis of data on scientific and engineering resources and to provide a source of information for policy formulation by other agencies of the Federal Government...

To carry out this mandate, SRS designs, supports, and directs periodic surveys as well as a variety of other data collections and research projects. These surveys yield the materials for SRS staff to compile, analyze, and disseminate quantitative information about domestic and international resources devoted to science, engineering, and technology.

If you have any comments or suggestions about this or any other SRS product or report, we would like to hear from you. Please direct your comments to:

ACKNOWLEDGMENTS

John E. Jankowski, Program Director, Research and Development Statistics Program, Division of Science Resources Statistics (SRS), National Science Foundation (NSF), provided overall direction for this report, with additional guidance and review provided by Mary J. Frase, Deputy Director, SRS, and Ronald S. Fecso, Chief Statistician, SRS. Tanya R. Gore, Rolfe Larson and Cheryl S. Roesel of the SRS Information and Technology Services Program (ITSP) provided editorial assistance

and final composition for this report. Peg Whalen, ITSP, oversaw electronic publication. QRC Division of Macro International, Inc. of Bethesda, MD, under NSF contract number SRS-9732370, prepared the tables, general and technical notes, and report copy. QRC staff members who worked on this project were Gail H. Henry, Cheryl Lloyd, Donald McMaster, Michael J. Rossi, Doorjodhan Singh, Susan Wimmer, and Emily Wuerker.
