NASF = net assignable square feet.

^a NASF is the amount of NASF located at only those institutions that also rated the condition of their space for their current research program. Consequently, there may be small variations in the amount of NASF in this table and the NASF amounts in other tables.

NOTES: Details may not add to totals due to rounding. Condition was assessed relative to current research program. Animal research space is listed separately and is also included in the individual field totals.
