

TABLE 16. Condition of science and engineering research space in biomedical institutions, by field:
FY 2003

(Net assignable square feet in millions; condition as percentage of net assignable square feet)

Field	NASF ^a	Condition			
		Superior	Satisfactory	Requires renovations	Requires replacement
All fields	19.5	51	38	9	3
Agricultural sciences	0.1	53	37	9	1
Biological sciences	9.3	53	35	8	4
Computer sciences	0.2	24	60	1	15
Earth, atmospheric, and ocean sciences	0.2	58	39	3	0
Engineering	0.6	52	48	*	*
Mathematics	0.1	96	4	0	0
Medical sciences	7.0	45	42	11	2
Physical sciences	0.8	62	19	18	1
Psychology	0.2	51	41	8	0
Social sciences	0.7	71	29	*	0
Other sciences	0.4	27	63	10	0
Animal research space	2.8	42	46	9	3

NASF = net assignable square feet.

* = greater than 0, but less than 0.5%.

^a NASF is the amount of NASF located at only those institutions that also rated the condition of their space for their current research program. Consequently, there may be small variations in the amount of NASF in this table and the NASF amounts in other tables.

NOTES: Details may not add to totals due to rounding. Condition was assessed relative to current research program. Animal research space is listed separately and is also included in the individual field totals.
