

Project Title: MathSciNet Database Subscription

Awardee: American Mathematical Society

Contract Number: 49100421P0080

Award Type: R&D

Amount: \$14,576

Principal Investigator: N/A

NSF Funding Program: Mathematical/Physical Sciences, Division of Materials Research

NSF Program Director: LaWanda Myers lmyers@nsf.gov

Abstract:

MathSciNet is a searchable online bibliographic database created by the American Mathematical Society in 1996. It contains all of the contents of the journal Mathematical Reviews (MR) along with an extensive author database, links to other MR entries, citations, full journal entries, and links to original articles. It contains almost 3.6 million items and over 2.3 million links to original articles
