Beginning March 18, 2013, the NSF will enhance the FastLane system to begin automated compliance checking of all required sections of proposals. This will bring NSF systems in line with long-standing proposal preparation requirements as outlined in the *NSF Proposal and Award Policies and Procedures Guide* (PAPPG) ([Chapter II.C.2](#) of the *Grant Proposal Guide* (GPG)). The GPG required sections of a proposal include:

Project Summary *	Budget Justification
Project Description	Current and Pending Support
References Cited	Facilities, Equipment and Other Resources
Biographical Sketch(es)	Data Management Plan *
Budget	Postdoctoral Mentoring Plan (if applicable)*

* These proposal sections are already being auto-compliance checked by FastLane.

Proposal submission instructions for conferences, symposia or workshops; international travel grants; or program solicitations may deviate from the GPG instructions. If the submission instructions do not require one of the above sections to be provided, proposers will need to insert text or upload a document in that section of the proposal that states, “Not Applicable.” Doing so will enable FastLane to accept the proposal.

Additionally, proposers providing Biographical Sketches and/or Current and Pending Support information for Principal Investigators (PIs), co-PI(s) or Senior Personnel in a single PDF file associated with the PI, must insert text or upload a document in that section of the proposal that states, “Not Applicable,” for any co-PI or Senior Personnel so that FastLane will accept the proposal.

PIs will receive a warning message if any of the GPG required sections is missing, however, the PI will still be able to submit the proposal to the organization’s Sponsored Project Office (SPO). If the SPO attempts to submit proposal that is missing any of the GPG required sections, they will receive an error message identifying the missing section(s), and FastLane will prevent submission to NSF. After obtaining all required sections, the SPO may submit the proposal to NSF in accordance with the established deadline date policy.

Proposals submitted through Grants.gov must include all GPG required sections or include a document stating that the section is “Not Applicable.”

We encourage you to share this information with your respective communities so that they are aware of this system enhancement. Additional information will be posted on the NSF website at:
