

## Electronic Capabilities Modernization Status

### December 26, 2014

NSF has undertaken a multi-year effort to modernize grantee electronic capabilities from FastLane to Research.gov. During this time of transition, electronic capabilities will be developed and launched in Research.gov. These capabilities may simultaneously still be available in FastLane for a period before being ultimately retired and available exclusively through Research.gov. In order to assist grantees, this matrix lists NSF's electronic capabilities and whether they can be found in FastLane, Research.gov, or both. This matrix will be updated as appropriate, independent of the *Proposal & Award Policies & Procedures Guide* (PAPPG) revision cycle.

#### Electronic Capabilities Matrix

Capability	FastLane	Research.gov
Access Award Documents	X	
Complete Financial Functions		X
Manage User Access, Permissions, and Roles	X	X
Prepare and Submit Annual, Final, and Interim Project Reports		X
Prepare and Submit Notifications and Requests	X	
Prepare and Submit Project Outcomes Reports		X
Prepare and Submit Proposals	X	X (pilot capability for system-to-system proposal submission)
Register and Maintain Institutions	X	
Register New System Users and Update Profile	X	
Request Supplemental Funding	X	
Submit Cost Share Reports	X	
Submit Proposal File Update	X	
Submit Revises Proposal Budget	X	
View Proposal Status	X	X
View Review Information	X	X
