

**List of Surveys Conducted on NCAR Activities
July 17, 2012**

Name	UCAR/NCAR Entity	Frequency	Description and Nature of Survey
UCAR Community Survey	UCAR	2000, 2005, 2009	Web-based survey to obtain feedback from research community on UCAR programs including NCAR's research and facility programs.
Computational User Survey	CISL/USS/DSS	Every 2 to 4 Years	User satisfaction survey of CISL's computational facilities
Use of Computational Facilities in Publications	CISL/USS/DSS	Annually (results used in ABR)	University user community for list of scientific publications that have benefitted from CISL computational resources, including the Research Data Archive (RDA).
Networking Satisfaction	CISL/NETS	Last conducted 2009	Conducts surveys of UCAR community for networking satisfaction
EOL Field Programs	EOL	After each field campaign	Post-field campaign questionnaires to obtain metrics on field campaigns and determine satisfaction with field project support and data management services provided for field programs. Involvement of PIs in formal field campaign debriefs as a mechanism for providing direct input to EOL.
CESM Workshop	NESL	Annually, after the workshop	Sent to participants to solicit review of the workshop and suggestions for improvements
CESM Tutorial	NESL	Annually, after the tutorial	Sent to participants to solicit review of the tutorial and suggestions for improvements
WRF Workshop	NESL, RAL	Annually, after the workshop	Sent to participants to solicit review of the workshop and suggestions for improvements
WRF Tutorials	NESL, RAL	Twice/year, after each of the two tutorials	Sent to participants to solicit review of the tutorial and suggestions for improvements
WRF for Hurricane	NESL, RAL	2009, 2010 (none in 2011)	To obtain feedback on the lectures, written materials (Users Guides), on the exercises, and on the general tutorial organization. We also ask if students would like to hear more/less on certain topics in future tutorials.
GSI Tutorial	RAL	Annually since 2010	To find out how the tutorial or workshop went, as well as some questions aiming to help improve user support (like what users use the system for, what they would like to learn in the future etc).
GSI Workshop	RAL	2011, 2013	Same as above with the GSI tutorial

MET Tutorial	RAL	Annually	Obtain feedback on tutorial
