

NOTICE
Change to a Published Agenda
Closed Session of the Committee on Programs and Plans
March 29-30, 2007 National Science Board Meeting

On March 30, 2007, The National Science Board voted to approve the addition of a discussion about the Scientific Ocean Drilling Vessel in the March 29, 2007 Closed Session of the Committee on Programs and Plans because the addition was required by agency business and no earlier announcement of the change was possible.

This discussion was covered by the Board's previous approval to close portions of this meeting and the corresponding General Counsel's certification. Board Members Abbott, Arvizu, Barish, Beering, Bement, Benbow, Bruer, Clough, Droegemeier, Ford, Galloway, Hoffman, Lanzerotti, Leshner, Randall, Reilly, Strauss, Taylor, and Thompson participated in the vote and no Member objected to this change.
