

BASIS FOR HOLDING COMMITTEE ON EXTERNAL  
ENGAGEMENT OPEN TELECONFERENCE ON SHORT NOTICE  
JULY 30, 2021

On July 28, 2021, the Executive Committee (EC) of the National Science Board voted to hold the videoconference meeting of the Committee on External Engagement (EE) on July, 2021. EC Members Drs. Panchathan, Ochoa, McCrary, Gil, and Phillips voted “yes” to hold the teleconference on short notice.

This meeting had been scheduled for August 3, 2021, but it was moved up because the Senate is holding a hearing on the Committee chair’s confirmation to an appointment at the Department of Energy close to the time of the original meeting. The EC members determined that agency business required the change.
