Practices for Broadening the Participation of Students with Disabilities in STEM

Mark Leddy, PhD
Research in Disabilities Education Program
Division of Human Resource Development
Directorate for Education and Human Resources

Committee on Equal Opportunities in Science and Engineering
October 15, 2007
A Developmental Social Neuroscience Approach to Perception-Action Relations (0642404)

Neural Systems for the Extraction of Socially-Relevant Information from Faces (0446801)

Peter Marshall, Temple University

James Haxby, Princeton University
Quality of Life Technology Engineering Research Center (0540865)

Takeo Kanade, Carnegie Mellon University
AccessComputing: The Alliance for Access to Computing Careers (0540615)

Richard Ladner, University of Washington

Michele Cooke, University of Massachusetts Amherst
Polymer-Based Nanocomposites: An Educational Opportunity for Deaf and Hard of Hearing Students (0406127, 0704056)

Peggy Cebe, Tufts University
REU Site: Research in Prokaryotic Biology
(0453353)

Timothy Hoover, University of Georgia
Speech Assisted Braille Math (9760018, 9901450)

Development of a Talking Tactile Computer (9960996)

Creating Accessible Science Museums for Blind and Visually Impaired Visitors with User-Activated Audio Beacons (0232817, 0421973)
Research to Aid Persons with Disabilities program (RAPD)

Undergraduate Design Projects for Developing Assistive Technology for Recreational Applications (0314095)

Karen May-Newman, San Diego State University

NSF Press Release 05-127
Research in Disabilities Education program (RDE)
The RDE’s Regional Alliances for Persons with Disabilities in STEM Education (RAD)
