Padma Raghavan is Vanderbilt’s inaugural Vice Provost for Research and a Professor of Computer Science and Computer Engineering. As Vice Provost for Research, Raghavan is responsible for the development of Vanderbilt’s trans-institutional research and she plays a major role in the university’s relationships with federal and private sector sponsors. Her office includes sponsored research development, administration, and compliance, intellectual property, technology transfer and commercialization, information technologies for research, and the oversight of several research institutes.

Raghavan specializes in high-performance computing (aka supercomputing) with nearly 50 Masters and Ph.D. theses supervised and over 100 peer-reviewed publications. She is a Fellow of the IEEE, the Institute of Electrical and Electronic Engineers, and she is active in the profession through her service as a member of the Advisory Boards of the Computing and Information Science and Engineering (CISE) Directorate, and the Office of Advanced Cyberinfrastructure (OAC) of the National Science Foundation, the National Academies Panel on Information Sciences at the Army Research Laboratory, the Board of Governors of UT-Battelle which operates the Department of Energy’s Oak Ridge National Laboratory, and the Council of SIAM, the Society for Industrial and Applied Mathematics, which leads SIAM together with its Board and officers.

**Education**

Ph.D., Computer Science, Pennsylvania State University
M.S., Computer Science, Pennsylvania State University
B.Tech., Computer Science and Engineering, Indian Institute of Technology
