

NSF Strategic Framework for International Engagement

Graham M Harrison
gharriso@nsf.gov

NSF International Engagement

- Excellent science is happening around the world
- NSF must be **intentional** and **strategic** in enabling US scientists to partner worldwide
- Driven by programmatic considerations
- Opportunities for partnerships with counterpart organizations around the world
 - Joint calls
 - Coordinated calls
 - Linking clusters of excellence
- Scalability

Strategic Framework

- Cultivating a globally-engaged U.S. S&E **workforce**
- Assuring access for U.S. scientists by leveraging investments through world-class **partnerships**
- Building capacity through U.S. global **leadership**
- **Organizational excellence** for strategic engagement
