

2015-12-08 Natural Science Foundation of China (NSFC) Official visits NSF

ZOU Liyao, Deputy Director General, Bureau of International Cooperation, Natural Science Foundation of China (NSFC) visited the NSF Headquarters in Arlington, VA on Dec 8, 2015.

ZOU met with NSF officials for a discussion on NSF's research center models; specifically, its Science and Technology Centers, Engineering Research Centers, and Mathematics Centers. In addition, he met with NSF officials in NSF's Geoscience and Biological Science directorates to discuss current and future U.S.-China collaborative research projects (see photos below).

ZOU (middle) met with Carol Frost, NSF Earth Sciences Division Director and Rebecca Keiser, Head, NSF Office of International Science and Engineering at NSF.
