RIN 3145AA47

National Science Foundation Implementation of OMB Guidance on Nonprocurement Debarment and Suspension

ACTION: Final rule.

SUMMARY: The National Science Foundation (NSF) is issuing a new part 2520 on nonprocurement debarment and suspension in title 2 of the Code of Federal Regulations (CFR). This new part is NSF’s implementation of the Office of Management and Budget’s (OMB) guidance provided at 2 CFR part 180. In light of the new part 2520, NSF is removing 45 CFR part 620, the part containing its implementation of the government-wide common rule on nonprocurement debarment and suspension. The new part in 2 CFR serves the same purpose as the common rule, but in a simpler way. NSF also is amending a provision in its research misconduct rule (45 CFR part 689) to update the reference to NSF’s nonprocurement debarment and suspension regulations. This final rule removes 45 CFR part 620, which is the current location for NSF’s nonprocurement debarment and suspension regulations. NSF is also amending a provision in its research misconduct rule (45 CFR part 689) to update the reference to NSF’s nonprocurement debarment and suspension regulations.

Executive Order 12866

OMB has determined this rule to be nonsignificant.

Regulatory Flexibility Act of 1980 (5 U.S.C. 605(b))

This regulatory action will not have a significant adverse impact on a substantial number of small entities.

Unfunded Mandates Act of 1995 (Sec. 202, Pub. L. 104–4)

This regulatory action does not contain a Federal mandate that will result in the expenditure by State, local, and tribal governments, in aggregate, or by the private sector of $100 million or more in any one year.

Paperwork Reduction Act of 1995 (44 U.S.C., Chapter 35)

This regulatory action will not impose any additional reporting or recordkeeping requirements under the Paperwork Reduction Act.

Federalism (Executive Order 13132)

This regulatory action does not have Federalism implications, as set forth in Executive Order 13132. It will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.

Subparts E—I [Reserved]

Authority:

§ 2520.10 What does this part do?

This part adopts the Office of Management and Budget (OMB) guidance in Subparts A through I of 2 CFR part 180, as supplemented by this part, as the NSF’s policies and procedures for nonprocurement debarment and suspension. It thereby gives regulatory effect for NSF to the OMB guidance as supplemented by this part. This part satisfies the requirements in section 3 of Executive Order 12549, “Debarment and Suspension” (3 CFR 1986 Comp., p. 189), Executive Order 12689, “Debarment and Suspension” (3 CFR 1989 Comp., p. 235) and 31 U.S.C. 6101 note (Section 2455, Public Law 103–355, 108 Stat. 3327).

§ 2520.20 Does this part apply to me?

This part and, through this part, pertinent portions of the OMB guidance in Subparts A through I of 2 CFR Part 180 (see table at 2 CFR 180.100(b)) apply to you if you are a—

(a) Participant or principal in a “covered transaction” (see Subpart B of 2 CFR part 180 and the definition of “nonprocurement transaction” at 2 CFR 180.970).

(b) Respondent in an NSF suspension or debarment action.

(c) NSF debarment or suspension official.

(d) NSF grants officer, agreements officer, or other official authorized to enter into any type of nonprocurement transaction that is a covered transaction.

§ 2520.30 What policies and procedures must I follow?

The NSF policies and procedures that you must follow are the policies and procedures specified in each applicable section of the OMB guidance in Subparts A through I of 2 CFR Part 180, as that section is supplemented by the section in this part with the same section number. The contracts that are covered transactions, for example, are specified by section 220 of the OMB guidance (i.e., 2 CFR 180.220) as supplemented by section 220 in this part (i.e., § 2520.220). For any section of OMB guidance in Subparts A through I of 2 CFR 180 that has no corresponding section in this part, NSF policies and procedures are those in the OMB guidance.

Subpart C—Responsibilities of Participants Regarding Transactions

§ 2520.137 Who in NSF may grant an exception to let an excluded person participate in a covered transaction?

The NSF Director and the Deputy Director have the authority to grant an exception to let an excluded person participate in a covered transaction.

Subpart B—Covered Transactions

§ 2520.220 What contracts and subcontracts, in addition to those listed in 2 CFR 180.220, are covered transactions?

Although the OMB guidance at 2 CFR 180.220(c) allows a Federal agency to do so (also see optional lower tier coverage in the figure in the Appendix to 2 CFR part 180), NSF does not extend coverage of nonprocurement suspension and debarment requirements beyond first-tier procurement contracts under a covered nonprocurement transaction.
The emerald ash borer (EAB) (*Agrilus planipennis*) is a destructive wood-boring insect that attacks ash trees (*Fraxinus* spp., including green ash, white ash, black ash, and several horticultural varieties of ash). The insect, which is indigenous to Asia and known to occur in China, Korea, Japan, Mongolia, the Russian Far East, Taiwan, and Canada, eventually kills healthy ash trees after it bores beneath their bark and disrupts their vascular tissues. The EAB regulations in 7 CFR 301.53–1 through 301.53–9 (referred to below as the regulations) restrict the interstate movement of regulated articles from quarantined areas to prevent the artificial spread of EAB to noninfested areas of the United States. Portions of the States of Indiana, Michigan, and Ohio are already designated as quarantined areas.

In an interim rule effective September 25, 2006, and published in the Federal Register on October 2, 2006 (71 FR 57871–57873, Docket No. APHIS–2006–0131), we amended the EAB regulations in §301.53–3(c) by designating the entire Lower Peninsula of Michigan as a quarantined area. That action was necessary to prevent the artificial spread of the EAB from infested areas in the State of Michigan into noninfested areas of the United States.

Comments on the interim rule were required to be received on or before December 1, 2006. We did not receive any comments. Therefore, for the reasons given in the interim rule, we are adopting the interim rule as a final rule.

This action also affirms the information contained in the interim rule concerning Executive Order 12866 and the Regulatory Flexibility Act, Executive Orders 12372 and 12988, and the Paperwork Reduction Act.

Further, for this action, the Office of Management and Budget has waived its review under Executive Order 12866.

**Background**

On August 8, 2005, Congress enacted legislation that authorized the Commission to impose new requirements governing unescorted access to certain radioactive material and other property subject to regulation by the Commission. Specifically, section 652 of the Energy Policy Act of 2005, Pub. L. 109–58, which amended AEA section 149, requires the Commission to ensure that “any individual” who is permitted unescorted access to “radioactive material or other property subject to regulation by the Commission that the Commission determines to be of such significance to the public health and safety or the common defense and...
