NSF’s Expectations

- The *awardee has full responsibility* for the conduct of the project or activity supported under this award and for adherence to the award conditions. Although the awardee is encouraged to seek the advice and opinion of NSF on special problems that may arise, such advice does not diminish the awardee’s responsibility *for making sound scientific and administrative judgements* and should not imply that the responsibility for operating decisions has shifted to NSF.

- By accepting this award, the awardee agrees to comply with the applicable Federal requirements for grants and cooperative agreements and to the prudent management of all expenditure and actions affecting the award.
