OFFICE OF INSPECTOR GENERAL  
OFFICE OF INVESTIGATIONS

## CLOSEOUT MEMORANDUM

Case Number: A02110054

Page 1 of 1

We received allegations concerning the management of an NSF division.<sup>1</sup> During the course of our investigation, we interviewed eight people who worked in the division in question<sup>2</sup> and two others<sup>3</sup> to determine whether there was any substance to the allegations and what role, if any, NSF OIG Investigations should play. Ultimately, we determined that many of the allegations concerned management actions that were more properly addressed either by the agency or grievance and other processes already in place. We were unable to substantiate any allegations that concerned a violation of law. Two of the issues raised by this case were audit rather than investigative issues; consequently, we referred them to Audit. Because there are no further issues that are properly within the scope of an OIG investigation, this case is closed.
