## CLOSEOUT MEMORANDUM

Case Number: A-04050028

Page 1 of 1

We received an allegation that the subject<sup>1</sup> submitted an article for publication without including one of his undergraduate students who had worked on the project as a co-author. The student had brought his concern to the University's administration as well. Our review showed that NSF has no jurisdiction in this matter.

Accordingly, we closed this case and no further action will be taken.
