CLOSEOUT MEMORANDUM

Case Number: I06090024

Page 1 of 1

This investigation was initiated based upon a complaint alleging that a company¹ had submitted similar proposals to both NSF and another federal agency.² The complaint also alleged that the company was receiving duplicate funding for the same project. The complainant alleged an NSF grant³ was identical to another federal agency's grant.⁴

The proposals and final reports for both the NSF award and the other federal agency's award were reviewed.⁵ It was determined that the two proposals, although appeared to focus on a similar research, involved the design and development of separate and different type of instruments/devices.

No further investigative efforts are required in this case.

Accordingly, this case is closed.
