CLOSEOUT MEMORANDUM

Case Number: I10080035

Page 1 of 1

We received a complaint that a professor¹ at a University² was using funds from multiple NSF awards³ to make personal purchases. Investigation into the matter revealed the University was lacking adequate supporting documentation for specific charges in question. The University addressed the situation conducting an internal review and eventually making proper restitution to NSF for all unallowable charges.⁴

Accordingly, this case is closed.
