Page 1 of 1

NSF's Office of Inspector General was alerted to a matter concerning a contracting company¹ that may have misappropriated funds used for travel and reimbursement. This matter was investigated to determine whether or not this allegation could be substantiated. A thorough investigation revealed that the contracting company did not violate any federal contracting regulations. However, internal concerns within NSF regarding contract oversight were uncovered through the investigation. These matters were addressed to NSF management for appropriate action.

Accordingly, this case is closed.
