CLOSEOUT MEMORANDUM

Case Number: I-13080052

Page 1 of 1

We received an allegation that a company¹ was under investigation by other federal agencies for potential bribery and fraud. A review of the company's documentation found that the company had subcontracted out a significant portion of its work without NSF approval, and reported inaccurate effort on its final report. We recommended that NSF terminate the final payment of the award. NSF agreed with the termination recommendation, resulting in \$49,991 put to better use.

This case is closed with no further action taken.
