Excepted Position Vacancy

ANNOUNCEMENT NO: E20050030

OPEN: 1/3/05

CLOSE: 1/18/05

THIS IS A TEMPORARY POSITION

POSITION VACANT: Computer Scientist (Program Director), AD-1550-4, salary ranges from \$85,210 to \$132,791 per annum.

PROMOTION POTENTIAL: Computer Scientist (Program Director), AD-1550-4.

LOCATION: Directorate for Computer and Information Science and Engineering (CISE), Division of Shared Cyberinfrastructure (SCI), Arlington, VA.

BARGAINING UNIT STATUS: This position is included in the bargaining unit and will be filled in accordance with the merit staffing provisions of the Collective Bargaining Agreement Article VII.

AREA OF CONSIDERATION: All sources.

THIS POSITION IS OUTSIDE THE COMPETITIVE CIVIL SERVICE

Appointment to this position will be made under the Excepted Authority of the NSF Act. Candidates who do not have civil service status or reinstatement eligibility will not obtain civil service status if selected. Candidates currently in the competitive service will be required to waive competitive civil service rights if selected. Usual civil service benefits (retirement, health benefits, life insurance) are applicable for appointments of more than one year.

The Division of Shared Cyberinfrastructure (SCI) provides leadership in and support of, high end computing-information-communication infrastructure (also known as cyberinfrastructure) for the national science and engineering community. Cyberinfrastructure projects supported by the Division have major national and international policy implications because of the pivotal role they play in advancing the Nation's science and engineering agenda. They are often unique and complex projects. Both scientifically and administratively they represent significant management challenges for NSF. They operate at the cutting edge of science and technology. Research and education activities enabled by these projects include the full spectrum of NSF-supported activities. Additional information about SCI and their programs can be found at <http://www.nsf.gov/home/cise/>.

DUTIES AND RESPONSIBILITIES: The individual will assist the Division Director in identifying emerging cyberinfrastructure opportunities, in computational science with special emphasis on multiscale modeling.

Within the context of the above duties and responsibilities, the incumbent of this position will be responsible for the following:

- Manage program resources so as to provide optimal appropriate scientific judgment to insure integrity and consistency in the grant/declination process without conflict-of-interests, and with balance among appropriate sub-fields and institutions, and participation of all qualified scientists. Incorporate cross-directorate responsibilities into program administration.
- Manage an effective, timely merit review process, with attention to increasing the size and quality of the reviewer pools and insuring participation by women, minorities and disabled scientists.
- Provide scientific expertise, evaluation and advice for other programs in NSF, including international programs, other research programs, and cross-directorate programs.
- Advise and assist in the development of short and long-range plans, establishing goals and objectives for research programs. Plan the budget for the program/programs. Considering past, present and future years, allocate resources within that budget distributing scarce resources among major competitive programs, and manage post-award evaluation.

QUALIFICATIONS REQUIRED: The applicant should possess knowledge and background experience in computational science and mathematical modeling, preferably with respect to applications in multi-scale physico-chemical or biological/biomedical processes, and should demonstrate a vision for how these elements (molecular to mesoscale to macroscopic) can drive the evolution of cyberinfrastructure. Expertise and experience in computational science in an inter-disciplinary, team oriented setting is also a necessity. The applicant's background should include funding agency experience and industrial experience.

Applicants must have a Ph.D. or equivalent experience in computer engineering, computational science/engineering or a closely related field, plus six or more years of successful research, research administration, and/or managerial experience beyond the Ph.D. in an area supported by the program.

CONDITIONS OF EMPLOYMENT: Appointment to the position is contingent upon successful completion of the appropriate background investigation. Satisfactory completion of a one-year trial period is required.

QUALITY RANKING FACTORS: Final ranking is based upon job-related experience, training, education, awards, performance appraisals or letters of recommendation, and the following knowledge, skills, and abilities:

- Knowledge of computational science and significant experience in multiscale modeling.
- Skill in gathering scientific information and communicating both orally and in writing with representatives from the scientific and/or engineering community.
- Skills in conducting scientific/technical analyses of proposals, and conducting final review of proposals and evaluations to recommend awards or declinations based on scientific merit, and evaluation of the availability of resources.
- Ability to manage, monitor grants, contracts, and cooperative agreements to ensure fulfillment of commitments and providing guidance to program staff as well as provide oversight and program management.
- Skill in preparing program budget and operating requirements and in serving in a lead capacity for coordinating a budget request plan.

HOW TO APPLY: You may apply for this position with the Optional Application for Federal Employment (OF-612), the older Application for Federal Employment (SF-171), a resume, or other application format of your choice - so long as it contains the necessary information (summarized below). You must submit a current Performance Appraisal or letters of recommendation from professionals who can comment on your capabilities.

You must specify the job announcement number, and title and grade(s) of the job for which you are applying. You should also provide the following information: * Your country of citizenship. * Your social security number. * Information about your education, including (1) high school graduation date and (2) college/university information - your major, and type and year of degree(s). * Information about all your work experience related to this job, including job titles, duties and accomplishments, employer's name and phone number, number of hours worked per week, starting and ending dates (month and year), and annual salary. If you held various positions with the same employer, describe each separately. * If you have Federal civilian experience, indicate the highest grade held, the job series, and dates held. * The brochure *Applying for a Federal Job* provides information on the Federal job application process; it is available by calling the number listed below. **If your application does not provide all the information requested in the vacancy announcement, you may lose consideration for this job.**

The National Science Foundation provides reasonable accommodations to applicants with disabilities on a case-by-case basis. If you need a reasonable accommodation for any part of the application and hiring process, please notify the point of contact listed on this vacancy announcement.
