

**This document has been archived and replaced by NSF 22-039.**

Justification for Supplement section of the Supplemental Funding Request. For REG supplemental funding request, the request should also include a **1-2 page biographical sketch for the graduate student researcher**. This information should be included in the Supplementary Documents section of the proposal. The proposed budget should include a research stipend of up to \$6,000 per REG student and up to \$5,000 per REU student. **All student costs should be entered as Participant Support Costs (Line F) on the FastLane budget.** Normally, funds may be available for one student; rarely, for two students; but exceptions will be considered for training additional qualified students. Proposers considering requesting funds for more than one student should contact the NSF program officer to discuss. Students conducting research involving the use of human subjects should either have approval from their university to conduct their research or have an application pending to their university's Institutional Review Board (IRB) **at the time of submitting the Supplemental Funding Request.** Further details about NSF's REU program can be found at: [http://www.nsf.gov/funding/pgm\\_summ.jsp?pims\\_id=5517&org=BCS](http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5517&org=BCS).

## **REVIEW OF SUPPLEMENTAL FUNDING REQUESTS**

---

Supplemental Funding Requests will be reviewed internally by NSF program staff using NSF merit review criteria; see Chapter III.A of the Grant Proposal Guide ([http://www.nsf.gov/publications/pub\\_summ.jsp?ods\\_key=gpg](http://www.nsf.gov/publications/pub_summ.jsp?ods_key=gpg)). **Special attention will be paid to the appropriateness and value of the educational experience for the student participants, particularly the independence and theoretical significance of the student's activities and the quality of the supervision. All supplement awards are subject to (a) the availability of funds, and (b) review of the quality of proposals.**

## **REPORTING REQUIREMENTS**

---

There are no special reporting requirements for these supplements beyond the regular reporting requirements that apply to the grant.

## **CONTACT FOR ADDITIONAL INFORMATION**

---

General inquiries should be made to the: **Cultural Anthropology Program** ([http://www.nsf.gov/funding/pgm\\_summ.jsp?pims\\_id=5388](http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5388)).

Sincerely,

Dr. Fay Lomax Cook  
Assistant Director  
Directorate for Social, Behavioral, and Economic Sciences
