

What are the Benefits of Receiving a Presidential Award?

Presidential Awardees receive a certificate signed by the President of the United States, a trip to Washington, D.C. to attend a series of recognition events and professional development opportunities, and a \$10,000 award from the National Science Foundation.

Awardees also join an active network of outstanding educators from throughout the Nation. Since 1983, more than 5,000 teachers have been recognized for their contributions in the classroom and to their profession.

Presidential Awards for Excellence in Mathematics and Science Teaching

Rewarding & Inspiring Great Teaching

Since 1983

The National Science Foundation administers
PAEMST on behalf of The White House
Office of Science and Technology Policy.

Presidential Awards for Excellence in Mathematics and Science Teaching

About PAEMST

The Presidential Awards for Excellence in Mathematics and Science Teaching (PAEMST) are the highest recognition that a kindergarten through 12th-grade science, technology, engineering, mathematics, and/or computer science teacher may receive for outstanding teaching in the United States. The Awards were established by Congress in 1983. The President may recognize up to 108 exemplary teachers each year.

Awards are given to STEM teachers from each state, the District of Columbia, the Commonwealth of Puerto Rico, the Department of Defense Education Activity schools, and the U.S. territories as a group (American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, and the U.S. Virgin Islands).

Awardees serve as models for their colleagues, inspiration to their communities, and leaders in the improvement of STEM education.

Who May Nominate?

Anyone—principals, teachers, parents, students, or members of the general public—may nominate exceptional science, technology, engineering, mathematics, and/or computer science teachers at www.paemst.org. To submit a nomination, the form requires the teacher's name, email address, and school name. If a person knows more than one teacher worthy of this award, more than one nomination may be submitted.

Awards alternate each year between elementary and secondary teachers. Nominations of elementary school teachers (grades K–6) are due on March 1st in even numbered years, and nominations of secondary school teachers (grades 7–12) are due on March 1st in odd-numbered years.

Who May Apply?

Teachers may initiate the application process themselves at www.paemst.org.

Applicants must:

- teach science, technology, engineering, mathematics, and/or computer science as part of their contracted teaching responsibilities at the K–6 grade level or the 7-12 grade level in a public (including charter) or private school;
- hold at least a bachelor's degree from an accredited institution;
- be full-time employees of the school or school district as determined by state and district policies, with responsibilities for teaching students no less than 50% of the school's allotted instructional time;
- have at least five years of full-time employment as a K–12 teacher prior to the 2019–2020 academic school year during which science, technology, engineering, mathematics, and/or computer science has been a part of the applicant's teaching duties each of the five years;
- teach in one of the 50 states, the District of Columbia, the Commonwealth of Puerto Rico, the Department of Defense Education Activity schools, or the U.S. territories as a group (American Samoa, Guam, Commonwealth of the Northern Mariana Islands, and U.S. Virgin Islands);
- be U.S. citizens or permanent residents; and
- not have received the PAEMST award at the national level in any prior competition or category.
