Technical reporting requirements are addressed in NASA’s addendum to FDP General Terms and Conditions Section 51 “Monitoring and reporting program performance,” set forth below.

Reference 14 CFR § 1260.22 Technical publications and reports (February 2000)
(a) NASA encourages the widest practicable dissemination of research results at any time during the course of the investigation.

(1) All information disseminated as a result of the grant shall contain a statement which acknowledges NASA's support and identifies the grant by number (e.g., "The material is based upon work supported by NASA under award No(s) GRNASM99G000001, etc.").

(2) Except for articles or papers published in scientific, technical, or professional journals, the exposition of results from NASA supported research should also include the following disclaimer: "Any opinions, findings, and conclusions or recommendations expressed in this material are those of the author(s) and do not necessarily reflect the views of the National Aeronautics and Space Administration."

(b) Reports shall be in the English language, informal in nature, and ordinarily not exceed three pages (not counting bibliographies, abstracts, and lists of other media). The recipient shall submit the following reports:

(1) A Progress Report for all but the final year of the grant. Each report is due 60 days before the anniversary date of the grant and shall briefly describe what was accomplished during the reporting period as outlined in § 1260.151(d). A special condition specifying more frequent reporting may be required.

(2) A Summary of Research (or Educational Activity Report in the case of Education Grants) is due within 90 days after the expiration date of the grant, regardless of whether or not support is continued under another grant. This report shall be a comprehensive summary of significant accomplishments during the duration of the grant.

(c) Progress Reports, Summaries of Research, and Educational Activity Reports shall include the following on the first page:

(1) Title of the grant.
(2) Type of report.
(3) Name of the principal investigator.
(4) Period covered by the report.
(5) Name and address of the recipient's institution.
(6) Grant number.

(d) Progress Reports, Summaries of Research, and Educational Activity Reports shall be distributed as follows:

(1) The original report, in both hard copy and electronic format, to the Technical Officer.
(2) One copy to the NASA Grant Officer, with a notice to the Administrative Grant Officer, (when administration of the grant has been delegated to ONR), that a report was sent.

(e) For Summaries of Research and published reports, one micro-reproducible copy shall also be sent to the NASA Center for AeroSpace Information (CASI), Attn: Document Processing Section, 7121 Standard Drive, Hanover, MD 21076.

Article 9. Financial reporting.

Financial reporting requirements are addressed in NASA’s addendum to FDP General Terms and Conditions Section 52 “Financial reporting,” set forth below.

Reference 14 CFR § 1260.26 Financial management (October 2001)

(a) Advance payments by electronic funds transfer will be made by the Financial Management Office of the NASA Center which issued the grant in accordance with procedures provided to the recipient. The recipient shall submit Federal Cash Transaction Reports (SF 272) to the aforementioned office and to the Administrative Grant Officer (if NASA has delegated administration) within 15 working days following the end of each Federal fiscal quarter. The final
SF 272 is due within 90 days after the expiration date of the grant. The final SF 272 shall be submitted to the Financial Management Office, with copies sent to the NASA Grant Officer. (b) Unless otherwise directed by the Grant Officer, any unexpended balance of funds which remains at the end of any funding period, except the final funding period of the grant, shall be carried over to the next funding period, and may be used to defray costs of any funding period of the grant. This includes allowing the carry over of funds to the second and subsequent years of a multiple year grant. This provision also applies to subcontractors performing substantive work under the grant. For grant renewals, the estimated amount of unexpended funds shall be identified in the grant budget section of the recipient's renewal proposal. NASA reserves the right to remove unexpended balances from grants when insufficient efforts have been made by the grantee to liquidate funding balances in a timely fashion.

Article 10. Incremental funding actions.

No additional documentation is required to trigger an increment; however, non-compliance with reporting requirements or unacceptable expenditure rates reported on NASA Form 272 Cash Transaction Report may delay incremental funding, but not without prior discussion with recipient.
