

Jeffrey K. MacKie-Mason serves, as of 1 July 2010, as the Dean of the School of Information at the University of Michigan; at present he serves as the Associate Dean for Academic Affairs. He is the Arthur W. Burks Collegiate Professor of Information and Computer Science, and a professor of Economics and of Public Policy, and holds his Ph.D. in Economics from MIT. In 2010 he was the recipient of a University of Michigan Rackham Distinguished Faculty Achievement Award. MacKie-Mason is well known for his pioneering research on the economics of the Internet and digital information, and earlier on the interaction between taxes and corporate financial decisions; he has more than 80 scholarly publications. He was the founding director of the STIET program for multidisciplinary research and Ph.D. training in e-commerce and incentive-centered design, which has received over \$9 million in funding. He consults to major technology corporations, the National Science Foundation and other government agencies, and serves on the editorial boards of several scholarly publications.
