ARRA = American Recovery and Reinvestment Act of 2009; DOC = Department of Commerce; DOD = Department of Defense; DOE = Department of Energy; ED = Department of Education; EPA = Environmental Protection Agency; HHS = Department of Health and Human Services; NASA = National Aeronautics and Space Administration; NSF = National Science Foundation; USDA = U.S. Department of Agriculture.

^a Beginning in FY 1990, DOD reports research separately from development. DOD states that more than 90% of its development obligations reported for universities and colleges are performed at university-administered laboratories that are separate from academic departments. Furthermore, DOD states that much of its development obligations are for major systems development, that such obligations differ from its obligations for advanced technology development, and that DOD total development obligations are therefore not comparable with development obligations at other federal agencies. Refer to table 20 for DOD obligations to individual institutions, by R&D breakdown.

^b Within HHS, Centers for Disease Control and Prevention data were excluded for FY 2010 due to their poor quality.

^c Includes obligations from the following agencies: Agency for International Development, Appalachian Regional Commission, Department of Homeland Security, Department of Housing and Urban Development, Department of the Interior, Department of Transportation, Nuclear Regulatory Commission, Office of Justice Programs, and Social Security Administration.

NOTES: Because of rounding, detail may not add to totals. Includes obligations to every individual institution included within each system. Only those agencies that had obligations in variables represented by this table appear in the table.
