NA = not available.

AP = Advanced Placement.

^a The College Board's references to the total number of high school graduates and the population percentages for racial and ethnic groups are based on projections supplied by the Western Interstate Commission for Higher Education. The College Board did not supply population percentages for males and females.

^b Percentages do not sum to 100 because the Other and No response categories are omitted from the table.

^c Hispanic may be any race. American Indian or Alaska Native, Asian or Pacific Islander, black or African American, and white refer to individuals who are not of Hispanic origin.

NOTES: The College Board reports AP results by graduating class rather than by calendar year. Results include exams taken by graduates throughout their high school career.
