AP/IB = Advanced Placement/International Baccalaureate; SES = socioeconomic status.
a Hispanic may be any race. Asian, black, white, and other races refer to individuals who are not of Hispanic origin.
${ }^{\text {b }}$ Other includes Alaska Native, American Indian, Native Hawaiian, Pacific Islander, more than one race, and those having origins in a race not listed.

## National Science Board \| Science \& Engineering Indicators 2018

${ }^{\text {c }}$ SES is a composite variable derived from parental education level, parental occupation, and family income. The quintile measure divides the SES distribution into five equal quintile groups. Quintile 1 corresponds to the lowest one-fifth of the population, and quintile 5 corresponds to the highest. For this report, the middle three quintiles are combined into one category.
${ }^{\mathrm{d}}$ This represents the highest level of education achieved by either parent.
