### S&E articles, by global share of selected region, country, or economy: 2006-16

EU = European Union.

**Note(s)**

Publication counts are from a selection of journals, books, and conference proceedings in S&E from Scopus. Publications are classified by their year of publication and are assigned to a region, country, or economy on the basis of the institutional address(es) listed in the article. Articles are credited on a fractional-count basis (i.e., for articles from multiple regions, countries, or economies, each region, country, or economy receives fractional credit on the basis of the proportion of its participating authors). Some publications have incomplete address information for coauthored publications in the Scopus database and cannot be fully assigned to a region, country, or economy. These unassigned counts, 0.1% of the world total in 2016, are used to calculate this figure but are not shown. See Appendix Table 5-27.
