Share of world S&E articles with international collaboration, by S&E field: 2006 and 2016

Note(s)

Articles refer to publications from a selection of journals, books, and conference proceedings in S&E from Scopus. Articles are classified by their year of publication and are assigned to a region, country, or economy on the basis of the institutional address(es) listed in the article. Articles with international collaboration are counts of articles with institutional addresses from more than one country or economy. Articles are credited on a whole-count basis (i.e., each collaborating region, country, or economy is credited with one count).
