D = suppressed for confidentiality reasons; NA = not available; S = suppressed for data reliability reasons.

SEH = science, engineering, and health.

<sup>a</sup> Full-time faculty includes full professors, associate professors, assistant professors and instructors from 1973 to 1995; from 1997 to 2010, full-time faculty includes full professors, associate professors, and assistant professors.<sup>b</sup> Underrepresented minority includes blacks, Hispanics, and American Indians or Alaska Natives. Total includes those of other and unknown race or ethnicity not shown separately.<sup>c</sup> Other positions include full-time positions such as research associates, adjunct appointments, lecturers, and administrative positions, as well as part-time positions of all kinds. From 1997 to 2010, other positions also include instructors. Part-time employment excludes those employed part time because they are students or retired.

NOTES: Detail may not add to total because of rounding. Academic employment is limited to U.S. doctorate holders employed at 2- or 4-year colleges or universities, medical schools, and university research institutes. Physical sciences include earth, atmospheric, and ocean sciences; life sciences include biological, agricultural, environmental, and health sciences. Data beginning with 2008 include all U.S.-trained doctorate recipients who lived or worked in the United States on the survey date. These data correct for a slight undercount in prior years, when some U.S.-trained doctorate recipients who either planned to live abroad or were living abroad were excluded.

SOURCE: National Science Foundation, National Center for Science and Engineering Statistics, special tabulations (2013) of the Survey of Doctorate Recipients (various years).
