FY 2001 Survey of Scientific and Engineering Research Facilities

PLEASE NOTE: The FY 2001 Survey of Scientific and Engineering Research is now closed in order to conduct imputation and table production for the first set of tables for NSF and NIH. The Web site will remain open for viewing by those academic institutions and biomedical organizations that submitted data during the data collection period. Data submission will still be accepted for use in subsequent tables and/or reports. If your institution/organization's data are ready for submission, please contact us at facilities@nsf.gov and we will arrange to receive your data.

Welcome to...

the Web-based data reporting system for the Fiscal Year (FY) 2001 Scientific and Engineering Research Facilities Survey. This system enables you to provide the National Science Foundation (NSF) and the National Institutes of Health (NIH) with needed data about your institution's research facilities.

Before you can begin you need to enter the Coordinator ID and Password we sent you. If you have misplaced this information, please email us and we will replace it. For additional help getting started, please consult the Online Help: After you have entered your identification in the boxes below, click Login.

The Web system will be closed for preventive maintenance each Wednesday from 5:30-7:30 pm EST

Acting out of concerns raised by the academic community, Congress directed NSF to collect and analyze data about research facilities at colleges and universities to report to Congress every two years. This survey is in response to that requirement under authorization of the National Science Foundation Act of 1950, as amended. NIH, co-sponsor of the survey, added biomedical research organizations and independent research hospitals to the survey.

Your participation in this survey is voluntary. However, your response is very important to us. Aggregate data from this survey are used by Congress, the Executive Branch, many higher education associations, and college and university administrators to help make policy decisions. The main topics in this year's survey include the amount of space in your institution and the adequacy of this amount of space for your research needs. The information compiled from these questions will provide a broad, quantitative picture of the amount and adequacy of existing science and engineering (S&E) research facilities.

NSF and NIH do not use or allow others to use detailed responses in any manner that would identify an individual organization's responses.

ITEM 1: Amount of Space in Your Institution

1a: What was the amount of not assignable square feet (NASF) used for instruction and research in each of the fields listed below at the end of your Fiscal Year 2001? You may estimate if exact figures are not available. Be sure to include leased space and animal research space. If no space is reported in a field, please indicate N/A for leased space.

**Preload Option:** Past participants can use “preload” to load this form with FY 1999 survey data.

<table>
<thead>
<tr>
<th>S&amp;E Field</th>
<th>INSTRUCTIONAL NASF</th>
<th>RESEARCH NASF</th>
<th>Is any of this research space leased?</th>
</tr>
</thead>
<tbody>

</table>

*Totals will be recalculated upon saving your data.*
Item 1 (continued)

1b: How much of the total research space for all S&E fields (Total under Research NASF in the table above) is leased?
If you do not know the exact amount, please provide your best estimate.

<table>
<thead>
<tr>
<th>NASF of leased research space:</th>
</tr>
</thead>
</table>

1c: What is the amount of NASF used for instruction in all non-S&E fields? For example, law, business administration/management (except economics), humanities, history, the arts or education (except educational psychology).
If you do not know the exact amount, please provide your best estimate.

<table>
<thead>
<tr>
<th>Instructional NASF for all non-S&amp;E fields</th>
</tr>
</thead>
<tbody>
<tr>
<td>+ Instructional NASF for all S&amp;E fields</td>
</tr>
<tr>
<td>= Grand Total Instructional NASF</td>
</tr>
</tbody>
</table>

ITEM 2: Adequacy of Research Space

2a: Please indicate in column "Item 2a", whether the amount of research space available to each of the S&E fields listed below is adequate, inadequate, or not applicable, using these definitions:

- **Adequate:** sufficient amount of space to support all the needs of your current S&E research program commitments in the field.
- **Inadequate:** insufficient space to support all the needs of your current S&E research program commitments in the field, or non-existent but needed.
- **Not applicable:** no space reported.

2b: If the amount of space is inadequate, then list in column "Item 2b" the amount of additional space needed.

**PRELOAD OPTION**: Past participants can use "preload" to load this form with FY 1999 survey data.
